CICERO.

FRIDAY, JANUARY 9, 1891.

Telegrams.

(By Havas Agency.)

London, Jan. 8th.—Bank of England minimum four per cent.

Dublin, Jan. 8th—It is said Parnell has made an agreement with O'Brien to resign the leadership till the next elections; O'Brien pledges himself to obtain the same concessions from McCarthy; the Nationalist members to appoint a temporary leader, and all to abide by the decision. Excitement is calming down.

Lisbon, Jan. 8th.—Negotiations with England are progressing. Owing to a split in the Republican party, a diversion is expected in the Cortes.

Montevideo 8th—It is stated that in a few days time a sensational decree will be issued in regard to the resumption of specie payments.

There appears to be no truth in the report of Finance Minister Montero's resignation.

Gold has gone up again; it is now at 63.

National Bank shares are at 144.

The Apolo left this evening for Buenos Ayres

Santa Fé, 8th—The Governor left today for B. Ayres.

Diphtheria has broken out in Galvez and is causing great mortality.

The Budget for 1891 was sanctioned yesterday.

THE FALL OF THE REPUBLICANS.

DR. PLAZA IN LONDON.

(Delayed.)

London, Nov. 8th.

As details arrive regarding the recent elections in the United States it becomes clearer that the Republican party has gone to pieces. Some States have gone over wholly to the Democrats, and there is hardly one in which the latter have not won some seats; for example, they have won 8 each in New York and Ohio, 7 in Pennsylvania, 6 each in Kansas and Illinois, 5 each in Massachusetts, Iowa, Wisconsin, and so on. The new House of Representatives will consist of 240 Democrats and only 92 Republicans, which is said to be a lower figure than known in Republican annals since the party was founded. But this House cannot meet before December, 1891, unless President Harrison calls for an extraordinary session next summer. Meantime the McKinley tariff will remain in force, as the Republicans declare they have no intention to repeal it, since it is the expression of their policy for weal or woe. The obstinacy on their part must be intended to punish the American people for having thrown the McKinley faction overboard, and will still further exasperate Uncle Sam against the Republicans.

Much trouble and confusion would be avoided if Congress at once proceeded to repeal the unlucky tariff. Unfortunately it may continue in force for 10 years, notwithstanding the great Democrat victory at the polls. The Republican party have a majority of 8 in the Senate, which the Democrats hope to reduce to 2 in the next session, but this will suffice (like the House of Lords in England) to throw out any measure, no matter how large a majority may have voted for it in the lower House. Even if the Democrats got a majority in the Senate President Harrison could put his veto to the Bill, and thus perpetuate the McKinley tariff, until two-thirds of the Senate and two-thirds of the Representatives should again pass the repeal of the tariff and carry it over the President's head.

Thus it is quite possible that the McKinley tariff, in spite of the American people, may remain law for many years to come. This shews a flaw in the U. States Constitution, as there ought to be some mode of giving effect to the wishes of the nation so clearly expressed in the present elections. Mr McKinley must feel the utmost satisfaction that, although he is turned out of Congress his work cannot be undone for years, and that his countrymen must continue to groan under heavy duties and high prices, merely to fill the pockets of a small group of manufacturers. There is a silver lining to the cloud in the possibility of the presidential elections for 1892 resulting in favor of the Democrats, a contingency that now seems within measurable reach. It is not decided who is to be the candidate of the Democrats, the names of ex-president Cleveland and Governor Hill of New York being mentioned.

Yesterday morning the *Times* had a well-written article on this point, to shew that Governor Hill, the candidate of the Irishmen of New York, has no merits that can be put in the scale against Mr. Cleveland. This may be so, but if two or three such articles appear in the *Times* they are eminently calculated to put the late president out of the field as a possible candidate. Anyone recommended by Lord Salisbury's organ is already hors-de combat. Perhaps this is really the purpose of the *Times*; at all events Mr. Cleveland will think it is. The recollection of the Sackville incident is still fresh on both sides of the Atlantic, and this is one good reason why Mr. Cleveland would be the worst possible candidate for the Democrats. He was considered by Lord Sackville as the one whose election all Britishers ought to desire; this settles his chances. There seems no good reason why Governor Hill should not be put forward: he represents the opinion of the most powerful State in the Union. Above all he possesses the confidence of the Irish party, which is now the principal factor in the destinies of the Great Republic. The present Democrat victory is in other words the triumph of the Irish vote, which has always been with the Democrats (except when the Sackville incident occurred to ruin Mr. Cleveland.)

The *Economist* has a long article of two columns on the advent of the Argentine financier to London, which is worthy of reproduction in all the newspapers of Buenos Ayres, as it shews what one of the best and most impartial writers on economic questions thinks of the task which Dr. Plaza has undertaken. At the same time *Truth*, which has been persistently urging people to buy Argentine securities and painting everything "couleur de rose" informs us in last week's number that Dr. Plaza is to remain permanently in London as special Argentine financial agent. In the programme which appeared in the *Standard* before his departure from Buenos Ayres there was no mention of a new loan, but the *Economist* and other papers say that the foremost purpose of his mission is to borrow a sum of 4 millions sterling and leave the money here, to cover the service of the national debt for two years. Such a sum would not suffice if the National Government persists in its Quixotic scheme of assuming the debts of the various provinces; after deducting brokerage and the other incidental expenses the net amount would perhaps cover 15 months' coupons, not more.

There is a very friendly tone in the article of the *Economist*, the writer truly observing that Argentina has come through many financial troubles and possesses great springs of public wealth. He is, however, ignorant of the mania that prevails in B. Ayres for "new industries", which would seem to have been invented by the Enemy of Mankind. I think the Retiro Clothmill in 1869 was the first, and a long and gloomy series of losses, baukruptcies, etc. culminated in the industry of Free Banking. These new industries have all a smell of brimstone.

Meantime, Dr. Plaza, after borrowing 4 millions sterling, is to try his hand at the conversion of the Cedulas. It is rumored that he is willing to give 5 per cent gold stock at 10 shillings in the £, and that holders want 5½ per cent; but it is generally felt that they will be wise to accept his offer. They will get £25 interest in gold instead of £30 in paper money. I should be very glad to see some such conversion of the paper currency, say 16 pence per dollar or gold at 300. Everybody, of course, expected in Buenos Ayres to see gold fall to 200 when Dr Celman was overthrown, but if you refer to my letters of that period you will find I thought otherwise. At present the quotation is 272, and it is going steadily to 300 and "plus ultra", in spite of Dr. Plaza and forcy Dr Plazas. Until you begin in Buenos Ayres to look at things as they really are, and do something more than bewail the scandals of the Free Banks, you will do no good. Shut up the banks that are rotten, and redeem the currency at 300 for 100: then you will breathe freely at last.

The Bateman Legacy is likely to be amicably settled, as the *Economist* says the bulk of the stock is in Barings' safe. The *Times* speaks of it as an unlucky business, but I think it has been very profitable to Messrs. Bateman and to the people who supplied the materials and had the contracts: to the people of Buenos Ayres it has been more than unlucky, absolutely disastrous. Half the graves in the Chacarita cemetery are filled with persons who toiled for 10 or 15 years to pay the cost of the Bateman Works and died before they could see them approach completion.

Among the other objects in view connected with Dr. Plaza is a scheme to convert the Free Bank loans of Santa Fe, Tucuman etc. into new Argentine 4½ per cents. This is likewise a matter on which he will find English bondholders willing to accept his proposals. It is very kind of the Argentine Government to step in at the critical moment and offer to pay the debts of the provinces, but whether it be acommon sense is quite another affair. The *Economist* thinks that two of the projects confided to Dr. Plaza are weighty, those of improving the currency, which is supposed to exceed 240 millions, and of converting the Cedulas, which are known to reach 360 millions. If he carry out either of these, and succeed also in borrowing 4 millions, he will have accomplished a good deal. He is probably the best man that could have been appointed for the purpose, as he speaks English fluently, has an engaging manner, and understands thoroughly the business that he has to take in hand. But it would be idle to disguise the fact that many difficulties surround the new loan, which the *Economist* hints may be hampered by conditions in favor of those houses which have already too many Argentine securities in their safe.

M. G. M.

CONGRESS.

THURSDAY'S SITTING.

SANCTION OF THE SPOLIATION TAX.

TWO PER CENT TAX ON EARNINGS.

DEPUTY MANSILLA'S WARNINGS.

THE MINISTER'S VICTORY.

People will neither forget nor forgive the last three sittings of Congress when in the midst of legislative merriment the Deputies of the Nation voted with a light head the most barbarous taxation on record in any country, not even excepting Egypt and its down-trodden fellahs. To add insult to injury, the Deputies sanctioned yesterday without a murmur or a sign of distrust the crushing tax of two per cent per annum on all deposits in the private banks—*a contribution that falls directly and solely on the earnings of the people.* Let the tax-payer bear this in mind and thank Minister Lopez and Congress for this exasperating burden on his work. This contribution is levied with a view of replenishing the coffers of the State banks, the main cause of all this misery and ruin, the hot beds of the corruption that led to the crisis and fall of the late Government; the people are asked by this extortionate means to take their deposits from the sound and safe private banks to the Augean stables of Free Banking. Well, we may assure the Minister in anticipation that he may extort the revenue of this tax, but he will fail to induce the savings of the people to walk into the gilded parlors and empty coffers of rotten State-banks. The last straw, they say, breaks the camel's back. This may be Minister Lopez's last straw, for the voice of the market will soon thunder its answer in still greater distrust and a far still higher gold premium. Instead of the savings of the people abandoning the private banks, the few savings still extant in deposit in the State Banks will emigrate to the coffers of the private banks. Then we shall watch the march of state banking without a dollar of the public and that of private banking with the whole market and country at its back. The two per cent tax on deposits will call for the corrective power of public opinion and we shall soon watch the effect upon a Minister infatuated with taxation but blind to the ruination that is looming over his exasperating bills.

The Deputies met yesterday, Dr. Zorrilla in the chair. The secretary read out the Stamp Bill:—

Art. 1—The Stamp Law of the 13th of October last for 1891, is modified as follows:—

1st—Increase in the ten cent stamp, prescribed by Article 8, to twenty cents.

2nd—Increase in the twenty-five cent stamp to fifty cents, Art. 9, in its clauses 1, 2, 3, 7 and 8. On the sale of bonds and other values on time, referred to in paragraph 3, clause 1, of a determined value the stamp shall be increased to one per thousand.

3rd—Increase of the six dollar stamp, according to Art. 15, to ten dollars.

4th—Increase of the ten dollar stamp, according to Art. 16, clause 3, to twenty dollars.

5th—Increase of the twenty dollar stamp to fifty dollars, for diplomas, degrees, etc.; the forty dollar stamp, prescribed by Art. 2, clause 1, is also hereby increased to fifty dollars.

Art. 2nd—The Banks that are not incorporated under the National free banking law must pay a tax of two per cent on their total deposits. This tax must be paid every month on the monthly average of deposits declared under oath. Should any false declarations be made, the bank shall be obliged to pay twenty times the impost on the amount concealed, and the manager and all employés implicated will be condemned to imprisonment for a term not less than two months and not exceeding six.

The banks must send in their monthly balances to the Conversion Fund within the first ten days of each month, and pay the tax within this term. In case of non-compliance the E. P. is authorized to close such banks.

Art. 3rd.—Banks, discount offices exchange establishments, which draw on Europe, notary offices, registered, etc. are obliged to admit the Government inspectors to audit their operations where stamps or stamped paper are required, and, should they refuse, the Finance Minister is authorised to call in public force to enable the inspectors to comply with their duties. In case of fraud or forgery, or analogous acts, the above establishments will be dealt with according to the penal prescriptions of Art. 3rd.

Art. 4th.—As long as the inconversion of the bank notes, specified as legal tender, continues, the respective banks must pay the tax of 1 o/o on the total of their authorised circulation.

Art. 5—All the legal prescriptions in opposition to this law are repealed.

Art. 6—Let this be communicated, &c.

Vicente F. Lopez.

Deputy Larsen, the informing member, explained the merits of the Bill, which put to the vote was passed in general. Art. 1st of the Bill was then taken up. Clauses 1 and 2 were sanctioned; clause 3 was thrown out.

Deputy Larsen proposed a clause whereby all gold "conformes" of the private banks should pay a stamp at the rate of 1 per 1000. Deputy Moreno shewed the absurdity of the motion, since "conformes" were included in the General Stamp law and must pay according to the scale fixed by that law. Deputy Larsen endeavoured to shew that "conformes" were not ordinary obligations but a kind of banking issue. The Minister of Finance supported his arguments, but failed to shake Deputy Molina's arguments, which convinced the House. It was then agreed that since "conformes" are included already in the general Stamp law that they should besides pay an additional tax of 1 per mil. This was passed by an overwhelming majority.

The clause was approved as follows:—

"All 'conformes' in gold of private banks shall pay an additional stamp at the rate of 1 per mil".

In Clause 5, Deputy Larsen proposed another amendment, increasing 50 o/o the stamp charges before the Juzgados de Paz. Deputy Pellegrini came down with horse, foot and artillery on this fresh imposition, and carried the whole House with him. Deputy Mansilla made a short but impressive address, reminding the Deputies that whilst voting with a light heart such enormous taxes, they had serious responsibilities to face: they should not forget that they were taxing a population of six hundred thousand souls, a population in a ferment of discontent. The eloquent Deputy's warnings carried weight and the extra stamp charges on litigants were thrown out.

Then the famous tax on deposits in private banks came up for discussion. It was not even discussed; it was put to the vote and passed nearly unanimously.

The remaining articles of the Bill passed in a similar manner.

The Smuggling Bill which came up from the Senate was shelved for discussion in the ordinary session next May.

The financial bills have now passed the Deputies; they immediately go before the Senate where they will be summarily dispatched and sanctioned. The Minister of Finance may feel proud over his success; the representatives of the people have accepted all his taxes which mean blue ruin to the people.

ILLEGAL TAXATION OF FOREIGNERS.

It would seem that our Financial Cato, in his efforts to raise revenue for the support of the Government, has not sufficiently considered the responsibilities the nation may incur by at least one of the means which he now has before Congress. We refer to his proposed tax on foreign insurance companies. His proposition reads as follows:—

"Art. 5—Insurance companies located abroad with branches here shall pay a tax of 7 per cent. on the premiums they collect on policies granted here."

And in his new license law it is provided as follows:—

"1°—Insurance companies which have not at least 50 per cent. of their capital employed here, and which have not a resident board of directors in the Republic, shall pay a fixed annual license of $10,000, if they undertake only one kind of risk, or $20,000 for two or more kinds of risk. These companies shall likewise provide a guarantee fund of $100,000 when working one kind of risk only, and $200,000 for two or more. Such fund may be invested in National securities and must be deposited in the "Caja de Conversion." No insurance company covered as above can do business without having first provided the guarantee; and any person infringing this law shall be liable to imprisonment of from 6 to 12 months, and the house or agency shall be closed."

The Minister, in submitting this scheme to Congress, does not hesitate to explain that, apart from the revenue he thus expects to secure from the foreign insurance companies located in the Argentine Republic, it is no more than just that there should be a discrimination against foreign companies, and in favour of such as have their concessions from the Argentine Government.

Now, the Minister may not be aware of the fact that it is not competent for the Argentine Congress to pass a law in reference to the taxation of foreigners which does not apply in an equal measure to Argentines.

We are quite certain that the treaties of friendship, commerce and navigation which the Argentine Government has ratified with Great Britain, France, Germany, the United States and, perhaps, other countries expressly forbid any discrimination against foreigners doing business in this country. We have not all these treaties before us; but that with the United States, ratified in 1853, in its tenth article provides as follows:—

"The citizens of the United States residing in the Argentine Confederation and the citizens of the Argentine Confederation residing in the United States *shall not be compelled, under any pretext whatsoever, to pay any ordinary charges, requisitions or taxes greater than those that are paid by native citizens of the contracting parties respectively.*"

The terms of the provision of the treaty seem to be emphatic against the proposed discrimination by the Argentine Government; and treaties are above and superior to any law that the Argentine Congress can enact on the subject.

We shall not be surprised, under these circumstances, if the Diplomatic representatives of any and all countries whose citizens may be affected by Dr. Lopez's unfair or unequal revenue measures, will soon be found making their protests and insisting that these insurance companies shall "not be compelled to pay greater taxes than are exacted from native citizens."

THE PORT WORKS.

A REPLY TO MR WHEELER'S LETTER.

Buenos Aires,
Jan. 7th, 1891.

To the Editor of the STANDARD—

Dear Sir—

I have just seen in your esteemed paper a letter signed by "Geo. H. Wheeler," and, as Mr. W. treats of the Madero Port Works and of the prayers of Argentines, of whom I am one, I feel a double interest in his remarks.

Now, Mr. Editor, it so happens that besides being a praying Argentine, I am connected with health matters, able to adduce pertinent facts, and authorised to express an opinion respecting them, for which reasons I crave the publication of these lines.

In the first place Mr. W.'s statement that "the entire medical faculty pronounce the works dangerous to the health of the city" is perfectly untrue. The health of the people on the Port Works causes agreeable surprise to those physicians who have had opportunities of judging, and will compare favourably with that of the healthiest portions of the town. If Mr. W. will look in at the Health Board, he will see that no other part of Buenos Aires can show such favourable returns for a population of equal numbers.

There are 4000 people located around these docks, and there is no case of smallpox or diphtheria, and only one of typhoid. What the immediate cause of typhoid fever was on board the "Tallapoosa" is matter for investigation. Respecting the "honest protest of the entire engineering ability of the country," and "the unanimous voice of the public press"—gammon! Mr. Editor, gammon! Not so the "protest of the elements in their loudest storm utterances;" the figure is so grandiose, and I am so superstitious when then the great voices of Nature are concerned, that I dare not do otherwise than leave Mr. W. to interpret them as the interests of his own particular port scheme may suggest.

With respect to the south entrance channel: is Mr. W. aware that the shipping in the Boca would require the channel to be made and kept in order, even if the Madero Port had never existed?

The idea of emptying the sewage into the Darsena Sud must be Mr. W.'s own; let us hope that the "storm utterances" will squeal vigorously, should he ever attempt it.

Does Mr. W. object to streets? Would he have hand-cranes, animal power and candle light! Would he dispense with "galpones," railways and warehouses?

Let us hope, Mr. Editor, that Mr. W.'s way of renewing the water in the docks will not be adopted, and that the sand and clay held in suspension by the water will not "decay and send forth its malarial emanations." This sounds queer!—and what about the sand in the river bed?

The prayers of Argentines are many, Mr. Editor, that the Port Works may soon be concluded, for the benefit of commerce, shipping, and the revenue.

Yours truly,
Porteño,

JUAN MOREIRA.

To the Editor of the STANDARD,

Dear Sir,

Though I have no particular desire to enter into any controversy re the subject of T. J. R's letter in your issue of the 30th ultimo, will you allow me to inform him through the medium of your widely circulated newspaper that he has entirely mistaken my intention and treated my former epistle more in the light of a criticism instead of a protest against the fulsome praise bestowed on such an unworthy object by your correspondent? Heaven forbid that I should ever aspire to the position of a dramatic critic, or even that of an actor, but I do not think it necessary to be either one or the other to realise when a person's intelligence is insulted by poet-like phrases, such as, "taking off your hat to the rising sun," and comparing the principal character to such eminent performers as Salvini or Irving. I plead guilty to the charge of never having witnessed such scenes in the camp, though I have spent the greater part of my life in this country; perhaps through gross ignorance on my part I have never looked for them, but I consider it a very weak argument on T. J. R's part to say that such scenes exist, only in a greater degree than represented on the stage. Dark spots exist in all countries but it is generally to the interest of the community at large to keep them dark and not drag them into the glaring light of day. What would be said were some enterprising individual to undertake the task of dramatising "Jack the Ripper," or night life in Whitechapel? Do you for a moment, Mr. Editor, believe the British public or, in fact, any civilised race of people would allow it to be placed on the stage? No, Sir.

I understand that since the advent of "Juan Moreira" in the Politeama several suggestive innuendos have been expunged and shorn of many "indecencias," but the entire piece from first to last is unmitigated rot and must necessarily have a demoralising effect on the rising generation of spectators. Let any unprejudiced person stand outside the theatre any evening and watch the same faces with the same insipid smile, the same "jovenes conocidos", the same old baldheads eagerly entering the portals to have their craving for unhealthy excitement pandered to; and, if the seeker after truth continues his investigations, he will find that, apart from the occupants of proprietory palcos, there is not an average attendance of ten females at any performance; he will also find that it is impossible to give children's afternoon performances, as no father with any respect for his children's welfare would allow them to attend, and the regular nightly patrons are amusing themselves elsewhere. Thanking you in anticipation for publishing this letter.

Respectfully yours
Old Subscriber.

Railway Items.

Dr. Araoz has issued the necessary instructions for the drawing up of a complete report on the expropriations effected for the Central Northern Extension Lines.

The seven per cent tax just passed by the Chamber of Deputies on the net earnings of local joint-stock companies does not affect the railway companies.

The Board of the Pacific Railway have concluded the plans of the "Defensa" works on Lake Picasa, and submitted them to Government for approval.

The Inspector-General has taken Engineer Seidler's advice and decided to reduce the style of the Salta Station, which is to be made on the model of the Jujuy Station. This means a reduction in the cost of the costly works of the Central Northern Extensions. It is quite evident the Government is determined to economise in that direction. These Central Northern Extensions have been draining the National Exchequer at the rate of £300,000 per month.

The Inspector-General has written to the Home Minister urging the advisability of erecting a rural station at kil. 151 on the Salta Extension. The I. G. says it could be built for $10,414 gold.

Railway concessionaires in the Province of B. Ayres had better look out for the privileges they obtained before the Reaction Epoch, as the La Plata Government is determined to annul all concessions the conditions of which have not been rigorously and punctually fulfilled.

The annexed is from the Report of the Directors of the Cordoba Central Railway Company, Limited, presented at the ordinary meeting on Dec. 18:—

"The directors present their third report with balance-sheet annexed. The gross receipts of the original line (Cordoba to the frontier of Santa Fe) from the 6th August, 1889, the date under which the line was received from the contractors, to the 30th June, 1890, have been 359,634·71 dols.; deduct working expenses, 267,369.11 dols; net profit, 92,265.60 dols., all of which has been applied towards payment of interest on the £400,000 five per cent. debenture stock. The gross receipts of the Central Northern section from the 14th February, 1889, to the 30th June, 1890, have been 3,879,317.59 dols.; deduct working expenses, 2,882,432,46 dols.; net profit, 996,885.13 dols. The number of miles open for traffic have been:—Cordoba Central original line, 128¼ miles; Central Northern section, 54½ miles. The following statements are collected from the general manager's report from the 6th August 1889, to the 30th June, 1890, upon the Cordoba Central original line, and for the six months ended 30th June, 1890, on the Central Northern section.

"Cordoba Central Original Line.—The net monthly profits have increased from 5,548·34 dols. for the period ending Dec. 31, 1889, to 10,753·97 dols. for the six months ending June 30 last, being an increase of 93·82 per cent.

"'Passenger Traffic. — The passenger traffic does not show a great improvement, owing to the stagnation of business principally, yet from local sources alone it is steadily growing, as towns and villages are springing up around our Rio Primero, Transito, El Tio, Devoto, and San Francisco stations, where, when the line was inaugurated, not a house was to be seen.

"'Goods Traffic.—Flour and wheat: This traffic keeps steady but has not come up to expectation, due chiefly to the crisis, as buyers in the northern provinces are holding back until things get more settled. Nevertheless there is every prospect of this traffic giving good results in the near future, as the northern provinces are, slowly but surely, opening up, which signifies an increased demand for these articles; and as flour can be got cheaper from the province of Santa Fe, we shall ultimately be the gainers, as it will have to pass over the Central Cordoba original and Central Northern lines."

The ordinary annual general meeting of the Santa Fe and Cordoba Great Southern Land Company, Limited, was held on December 8th at Winchester-house, Old Broad street.

Mr. H. R. Rodger presided, and said that there had since been almost constant trouble in financial affairs in the River Plate, though the position had from time to time varied considerably. Nevertheless the board was enabled to declare with safety a small dividend; and the dividend of 5 per cent, amounting to £14,000, shown in the revenue account, was paid on the 12th of May last, and at the time that it was paid it was considered probable that a further dividend of 5 per cent, or perhaps even 10 per cent, might be available for distribution at the close of this year. He regretted to say that this probability was quite out of the question. From the report they would see that the board had not considered it desirable under present circumstances to reinvest the capital which they had now in hand for lands which had been sold, though at the same time they had confidence in a satisfactory result to the shareholders as regarded lands already held. It would be noticed that the dividend of £14,000 had been paid on a capital cost of almost exactly the same amount. In respect of this it was only right to point out that the capital cost of £14,468 contained an item of more than £4,000 for lands sold to the railway company at cost price, in accordance with a special agreement at the time the purchase was made, it being arranged that the railway was to take part of the purchase at cost price for the purpose of placing upon it their terminus at Rio Cuarto, closely adjoining the Andine railway station, and thus give value to the land remaining in possession of the company. It would, therefore, be seen that the dividend was really paid on a capital cost of about £10,000. Turning to the balance-sheet they would find that the share capital paid up, which at the date of the last account stood at £178,700 now amounted to £280,000. As regards this, he would remind them that when addressing them last year he had expressed the board's intention to make an issue of a further portion of their capital, but that that intended issue was held in abeyance because influential opinion had inclined towards the idea that they should take up money on loan to meet the new purchases of land, and pay off such loans in proportion as sales of land progressed.

The retiring directors and auditors were re-elected.

EDITOR'S TABLE.

The gold eagle gave a sharp scream again yesterday and started for 400, soaring up ten points. Everybody asked what was up, and the new taxes, the row in Chile, the Cedula rumpus, the state of the provinces and some rumoured upset of the loan coach in London were variously assigned as reasons for the upward flight of the premium. The confounded financial muddle grows so much worse daily that even our distinguished economic colleague the *Courrier* throws up the sponge and confesses that it cannot make head or tail of the situation.

There was no news from Chile yesterday, as the Chilian Government has stopped all telegraphic communication with this country, and, we suppose, with others also. This leads to the inference that affairs are scalding hot on the other side of the Andes.

The Veloz Club announce a grand velocipede Tournament at Palermo next Sunday. The programme is splendid and promises good sport. We thank the Committee for their kind invitation.

Our breezy evening contemporary *La Ley* fired a hundred-pounder news shot yesterday that made the welkin ring. General Mitre has telegraphed to Don Emilio Castro that he will not touch the Presidency even with a tongs (wise man). "Noli episcopari," says the General; but he thinks that his friend Dr. Lopez, Minister of Finance, is just the man for the thorny seat. This resolve of the distinguished absentee will give the Presidential question quite another twist.

In Montevideo they are promised another "sensational" decree on financial matters before the week is out. Nobody can as yet even make a decent guess as to what is in the wind; but the gold premium is again rising on the other side of Jordan.

The *Operario* makes a serious charge about the locking up of an Englishman named Cole, in the employ of the Rosario Railway, who was out of his mind and died, from apoplexy, in the prison cell.

Chickens, curses and Cedula swindles, have a trick of coming home to roost, sooner or later. Ex-Governor D'Amico, who is now in Mexico, has published there a pamphlet with tremendous revelations about the famous 800,000 dollars affair. His ex-Excellency mentions names freely. Only very few copies of this bombshell brochure have as yet been received here; but we suppose the murder will out some day.

The lucky trio who won the Sansinena quinta at Temperley gave a grand breakfast yesterday to their friends in its leavy shade. Speeches were prohibited.

There was a big blaze in the Tres Arroyos wheat fields the other day, and 15,000 dollars worth of material for making the staff of life ended in smoke.

Affairs in Entre Rios are beginning to look gunpowdery again, and troops are about to be sent there to ensure order.

The Sisters of Mercy have returned to the Irish Convent at the corner of Calles Tucuman and Rio Bamba. All their old friends will be delighted to see them back there again after their long absence in Australia. The ladies open their school on 15th February next, and, as appears by notice in another column, they have a Home for Irish girls, and ladies requiring servants are requested to call at the Convent.

Our ever-welcome exchange the *Sud-Americano* is all views and no portraits this time. The sketches are admirably done, and include views in Bolivia, Chile, Banda Oriental and this country. The Tigre Hotel and Hammer Hall, the beautiful villa of Don Adolfo Bulrich, on the banks of the Lujan, are especially well done.

The Postal authorities in Corrientes seem to have almost as hazy notions of the geography of their country as those which prevail in Europe. The Port Prefect sent a letter to Colastine five months ago; it was sent to Corrientes, from which place it has just come back with the note that no such place as Colastine is known there!! Bravo!

Bull fighting has been introduced in this country. There was a brutal exhibition of this kind the other day in the city of Salta; three bulls were killed and one "torero" was horned severely.

We have to thank the Red Star Agency of Plaza Victoria for many English papers up to a very recent date.

A lot of rifles, the same as used in the Swedish army, has just arrived for the National Government. The present is not exactly the time for buying rifles, new war ships and other paraphernalia of "Horrida Bella". Where is the money to come from?

A clerk in the Rentas Office is in trouble for not having advised the Custom House of the change in the rate for gold duties on New Year's Day, thus entailing a loss to the Treasury of 250,000 dols. in three days. Rather loose way of doing business this.

The Rev. Dr. Smith will preach on Sunday 18th, at noon, at the Cabaña, district of Cañuelas.

The daily telegrams from the provinces are most uninteresting reading, being a tissue of politics and electioneering from end to end. If politics could be shelved till the weather gets a little cooler, it would be a great blessing.

The commercial community at Rosario are said to have arrived at the conclusion that the avalanche of new Catonian taxes will make matters ten times worse than they are. This is a safe prediction.

At Frank Brown's Circus this evening, Friday, being the customary fashionable night, several new artists will make their first bow to an Argentine audience. A lady equestrienne, Miss Rosita, will appear for the first time, and a contortionist who was won golden opinions in Europe will also appear; but the great attraction will be the debut of the Wonderful Performing Seal which has created such a furore wherever it has been exhibited; and it is really surprising the amount of intelligence displayed by this animal, which works a sewing machine, plays a tambourine and does may other curious things that few people would believe unless seeing for themselves. The Seal will be on exhibition every night in the vestibule of the Teatro San Martin.

From all parts the holders of Cedulas are sending in their adhesion to the movement initiated in the National Theatre on Wednesday. It is to be hoped that there will not be too much talk in the case, but that it will brought before the Supreme Federal Court at once. Anything short of this will only lead to pottering and confusion worse confounded.

The Argentine ironclad Admiral Brown left Liverpool on December 29th for the River Plate. She will call at St. Vincent and Rio, and take on board at the latter place the remains of General Pannero, who died while Argentine Minister there. The total cost of putting the Brown in fighting order again was £120,000 stg.

At the Regatta in Montevideo on T

Teatro San Martin—Open every evening, at 8 p.m. Sundays and Holidays two performances afternoon at 2.30, evening at 8 30. THE DIPPING SEASON.

Under the above heading, the following appears in a recent exchange:—

"Speaking of Dips themselves, perhaps the most significant feature in their "History is the way that the Old fashioned have been superseded by the more "Modern and Scientific preparations. As Tobacco gave place to the various 'Fluids' "and these again to the 'Powders' so we find to-day these latter retiring before the "new Paste Dips. Of the many recent experiments we have witnessed in England and "the Colonies, the most successful were with an Arsenical Paste, manufactured by "Tomlinson and Hayward, of Lincoln, a firm that has always been noted for keeping "abreast of the times."

"The advantages of the Paste over the "Powders" are many:—

"It does not make the wool dry and harsh, but leaves it soft and silky, giving a "healthy sweet smell to the sheep. Being, so to speak, already mixed, it is easier to "prepare there, being no waste nor loose "Powders," to fly about.

"As it is prepared with Carbolic it is lighter than the "Powders" and does not "so readily settle to the bottom, and for the same reason it is not injurious to the "hands. It goes in less space and is a more concentrated form than the "Powders," "thus effecting an economy in transport and labour. It costs less, and will mix with "any kind of water. In a word, it is the "Powders," cleared of their many inherent "defects, with their curative properties and good qualities preserved and increased. "Until the manufacturers make some better discovery

"HAYWARD'S PASTE DIP
IS
"THE DIP OF THE CENTURY."

Sold in cases to make 800 and 1,600 English gallons.

Gold equivalent	319.00

Thursday, January 8th.

The market to-day presented a new and uneasy aspect, and as a matter of course gold, advanced ten points and all stocks tumbled. At the private banks the question is now openly mooted of going into liquidation rather than pay such outrageous taxes as 10 ojo on profits and 2 ojo on deposits. At first, owing to the remarks of the *Nacion*, the general impression was that the 2 ojo tax on deposits had been eliminated and the tax on the profits raised from 7 to 10 ojo, but it appears the *Nacion* fell into a grave error, and both taxes are insisted upon; and in banking circles they say that in view of such unprecedented imposts four of our principal private banks will in all probability go into liquidation. Any such step would, of course, not only ruin the market, but the Government, as to all those banks the Government is indebted for large sums, both in gold and paper, and the bills when maturing have to the present been renewed. Aside, however, from the great depression which this new bank tax has caused in the market and the unusual and extraordinary language of the Minister respecting the private banks, there are other very disturbing elements at work. The news of General Mitre's telegram to Don Emilio Castro declining to be candidate for the Presidency, the revolution in Chile and the indignation meeting of Cedula holders yesterday in the National Theatre, all conspire to disturb confidence. People naturally ask where is all this to end?

The following is a summary of operations effected this afternoon during the first ring:—

Jan. 9th	P	20,000 at 53 53.30

The poor people of Buenos Ayres beg to inform Minister Lopez that sugar is now selling at *seventy* cents per kilo and aguardiente at *sixty* cents per quart. This is simply unbearable, and to think that this is only the beginning of the misery!

Not a month ago the Minister of Finance and his presidential master stated in newspaper articles and official documents that the private bankers and a ring of Jews on 'Change were the cause of the rise in gold. The day before yesterday the same Minister of Finance (we change Ministers so often in these latitudes) emphatically stated in the precincts of Congress in answer to the sound speech of Deputy Molina, that *the cause of the rise in the gold premium was the Government which was obliged to enter the market and buy large amounts of gold to meet foreign* obligations. What about the previous statements of the Minister and his presidential master? We shall refrain from harsh words—suffice it to say that those statements are quite contradictory—why quarrel about words or terms? The very same Minister stated yesterday in Congress that gold was firm in the vicinity of 300 because the Government had still heavy obligations to meet "Raum Pencacis." What about the banking usurers, the traitors to the interests of the country, the Hebrews on 'Change and other "luchezas" of that ilk. Times have changed, very much so.

A sentimental London banker telegraphs to the Minister that the private banks would rather pay 10 ojo on their profits than see the private deposits taxed 2 ojo. Our infatuated Cato immediately increases the duty on banking profits to 10 ojo and maintains the tax on deposits. This is adding insult to injury. Those whom the gods wish to destroy, etc.—this is applicable both to the London banker and the Finance Minister.

Where will all this end? We shall endeavor to cast the horoscope. All this will end in the downfall of the Minister of Finance, in the liquidation of the private banks, in the ruin of the market, in gold at 500, and—in chaos. It is, indeed, a solemn sarcasm to hear of private banks going into liquidation, while the free banks are under the protecting wing of the Minister. This is the way in which finances are conducted.

It is argued that the working classes will take their earnings out of the private banks and deposit them in the State banks, in order to avoid the Catonian tax of two per cent per annum on deposits. Vain delusion! What will happen is that the few deposits still held by the working classes in the State banks will be withdrawn and will be deposited in the banks so ruthlessly attacked by the Minister. And if the private banks go into liquidation, their depositors will remit their earnings to Europe rather than trust them to the eventualities of free or State banking. You cannot force earnings into any bank. Not one hundred Catos can do this.

Gold closed to-day at 328. What will the price be to-morrow? What will it be in the next

year embraced 923,165 cwts. from the River Plate, or more than from Canada, Roumania or the United States.

At the meeting of Congress to-day the 2 o|o tax on private bank deposits was taken up and passed, which destroys all hopes of this most obnoxious measure being abandoned. It has still to go to the Senate, but it is anticipated that it will experience no greater difficulty there than with the Deputies, which is a very bad look out. Full particulars will be found in another column.

The Lamport and Holt packet Galileo left to-day with the Belgian mail and full cargo.

Telegrams received from London to-day announce the rate of discount of the Bank of England down to 4 o|o and the rate in the market at 2⅞ o|o.

The business at the second hour was a mere bagatelle, as, apart from the few paltry transactions effected in stocks exchange was at a stand-still, drawers having retired from the market. As a consequence of this, gold on the kerb-stone rose like a rocket, jumping from 319 to 322 with incredible rapidity, then to 326 and finally to 328 at which the rate closed sellers. Everybody was discussing this very sudden change in the market. It was remarked that up to 1 p. m. exchange was doing at 1·58 frs on Antwerp, 1·57½ frs on Paris and 14¾d on London, first rate paper; but at 4 o'clock all business was paralysed, the rate having collapsed to 14½d and 1·53 francs. Some parties thought that the cause might be a hitch in the loan, but this proved unfounded, as the loan negotiations are finished so far as London is concerned and have only to be wound up here in Congress to finish the business. This leaves no doubt that it is the violent attack on Foreign Capital by the Minister and, indeed, his financial plan in general, that is causing the great convulsion in business and distrust in the market.

The following is a summary of the business effected in stocks during the second ring:—

National Bank Shares—	
January 9th	1500 at 102.50-102-103
January 31st	200 at 102.50-103.50
	1700
Catalinas Moles—	
January 9th	4200 at 19-19.20-19-19.10
Jan. 10th	1000 at 19.10-19-19.20
	5200
Banco Constructor—	
January 9th	1500 at 10 9,90-10-9.80
Provincial Cedulas—	
Jan. 9th I	1,150 at 75
Jan. 9th K	9,000 at 56
Jan. 9th F	20,000 at 53.30
Jan. 9th G	25,000 at 53
Jan. 9th L	26,000 at 53-53.30
Jan. 9th M	13,000 at 52 70-60
Jan. 9th N	84,500 at 52.80-60-92
Jan. 9th O	29,500 at 52.70 53
Jan. 9th P	120,000 at 53.50-54 53.80

It is calculated that Belgium suffers pretty heavily from the River Plate crisis, considering that it has absorbed 400 millions of francs in provincial loans of Corrientes, Tucuman, etc., and about 500 millions of francs in Cedulas. As the latter are now worth about 25 the losses must be severe.

The Government has resolved that Docks No. 3 and 4 of the Madero Port shall each be provided with 4 deposits of three storeys and cellars of 117 x 26 metres, instead of the two deposits and 2 galpons previously stipulated. These new galpones, which are to be constructed according to the plans presented, will, moreover, be provided with two platforms of 5 and 2½ metres respectively corresponding to the 1st and 2nd storeys. The galpon to be built at the Southern extremity of Dock No 1 will have a cellar on the lines laid down by the Engineers' Department and Revenue Office, whilst the cost of these works shall be that set forth in the plans

Messrs. G. Kelsey and Co. sold to-day in the Plaza Constitucion market 12,000 kilos of Entre-Rios wool at 11.15 m|n per 10 kilos.

The steamer Bearn has arrived from Marseilles with 500 passengers and 850 tons of cargo for this port.

The rates given at the head of these columns are the official ones, the drawing rates of the private banks being as follows:—

London and River Plate Bank—
London, 14⅛d.
Paris, 1.55 fcs.
Germany, conventional
English Bank of the River Plate—
London, 14⅛d.
Paris, 1.553 fcs.
Germany, 1.20 marks
Italy, 1.58 lire
Banco Carabassa y Cia—
Paris, 1.55 fcs.
Banco de Italia y Rio de la Plata—
London, 14⅛d.
Paris, 1.55 fcs.
Italy, 1.56 fcs.
Germany, 1.27 marks

At the meeting of directors of the Provincial Bank held yesterday it was resolved to fix the amount to be discounted by the branches at two million dollars. The Board will meet again on Monday to fix the amount to be discounted in this city.

The decree appointing Messrs Biaquier, Avellaneda, Madero and Alcorta directors of the National Bank for 1891 was issued yesterday, and it may be added that these appointments have been most favourably received in the market.

The packet which leaves Montevideo today for Europe takes another gold nugget to London from the San Gregorio mines in Tacuarembo, being the twentieth remitted from these mines to the board of directors. The nugget or cake weighs 22 kilos.

According to our Uruguayan contemporary, *Argos*, published in Durazno, the great storm last month killed 19,503 sheep in the third section of that department.

The new exchange committee of the Bolsa is composed of Messrs. D. Ford, E. Falcon and T. Mayer.

The following is the movement at the Darsena and docks:—

Unloading: s.s. San Gottardo in the Darsena, s.s. Canadian in Dock No. 1; s.s. Pelayo, Campeador Ethiope, Franklin, Comellarth, Charanto, and Kols in Dock No. 2.

Loading: s.s. Heraclides, Flaxman and Corrientes in the Darsena, s.s. Paraua and Entre Rios in Dock No. 1 and in Dock 2 none. The German steamer Parahyba and English s.s. Sarapasa were expected in today and the s.s. Bellarden, Japan and Bearn are due to-morrow.

The following telegram was received to day from London:—

Titulos de 5 o|o, 76.
National Bank shares, £6 10s.
National Cedulas A, 30⅜
National Cedulas E, 29⅜
Provincial Cedulas P, 17.

The movement in the Central Produce Market on Wednesday (7th inst.) was as follows:—

Arrivals: 55 wagons, with 154,580 kilos wool, 2240 do sheepskins, 2100 do cowhides, 80 do horseshides, 159 do hair, 4600 do flax.

We take the following from the *South American Journal* of Dec. 13th—

"The exception made in favour of the Argentine 1886 Loan by the Rothschild Committee has given rise to some complaint in the City, which has found expression in the congenial 'money column' of the London *Standard*. Says the City Editor of that journal: "Mr Burns has done mischief by insisting on this preference, and he will have to abandon his claim." Now, the truth of the matter is that the Committee has not established this preference at all, but simply recognized a state of things actually existing. In proof, we need only quote as follows with respect to this particular issue from Burdett's "Official Intelligence":

"The Loan is secured generally upon the public revenues of the Republic, and especially upon the Custom-house receipts which are to be paid each month to the National Bank at Buenos Aires, who are appointed agents for the purpose of collecting, and remitting monthly to the Banque de Paris et des Pays-Bas at Paris the amount necessary for the service of the Loan.

"Here is a specific lien, and it would have been more than strange had high financial authorities sought to weaken its emphasis. It would have been to create a disastrous precedent."

The following business was effected in the Montevidean "Centro Comercial" on Tuesday:—

Gold—
For cash $26,114 opening at 150, closing at 166½
National Bank Shares—
For cash 720 at 14½ to 16½
January 8th 250 at 14½ to 16
January 10th 600 at 16½ to 16⅜
After-hours—

Wolseley Sheep Shearing Machine Company, limited.
Cabaña del Rincon,
Propiedad del Señor Don Tomas Bell,
Estacion Pereira, 18th Sept. 1890.

Messrs. Agar Cross & Co.

Dear Sirs,

I have great pleasure in reporting favourably of your "Wolseley Sheep Shearing Machine." Up to date we have shorn upwards of 300 Lincoln Rams and Borregas, and find it quite up to our expectations. It is simple and easily handled, and in no way complicated or difficult to understand or work, and so far it has never been out of order. It shears the sheep beautifully: it does them quicker and considerably better than it is possible to get them done by hand, and saves the poor animal a great amount of abuse.

I have timed our Amateur Shearer here, and find he can shear upwards of eight in the hour. Consequently, I consider the Wolseley Machine one of the best patents I have yet seen, in proof of which I intend having some more put up at an early date.

Yours very truly,
WILLIAM RIDDICK.

Sociedad Cooperativa Telefonica Piedad 650. Se hace saber a los Señores accionistas y al publico en general, que debido a las actuales circunstancias, el directorio en su sesion del 30 del presente, ha resuelto aumentar el abono mensual a 8 pesos para los accionistas y 12 pesos para el publico en vez de 7 y 10 que se cobraba, a contar desde el 1o de Enero de 1891.

Se recuerda a los Señores abonadas que esta Sociedad ha conservado hasta la fecha el precio establecido en Abril de 1888, cuando el oro estaba al rededor de 140 o|o, pero hoy que se ha elevado a 308 o|o, le es imposible llenar sus compromisos sin este pequeño aumento, que ha hecho lo posible por evitar.
